Sir,

Sub: Establishment - Agriculture - Agricultural Research Station, Siruguppa - Additional Assistant - Sanction - Renewal - Requested.

Ref: G.O.Ms.No.3133 Development Department, dated 17-7-1944.

In the G.O. quoted above, Government were pleased to sanction the temporary post of an assistant for the Agricultural Research Station, Siruguppa, for a period of one year from date of employment, to cope with increase of work, in connexion with the analysis of samples of soil and water received from the Public Works Department. Owing to dearth of hands, the sanction could not be acted upon and it has consequently lapsed. I, request that Government may be pleased to renew the sanction for the temporary post of assistant for the Agricultural Research Station, Siruguppa, for a period of one year from date of employment.

Your obedient servant,

f 8 below. I enclose a copy of letter No.330/45 dated 16-3-46 received from the Government Agricultural Chemist, Lawley Road P.O., who was consulted regarding the renewal of the post of the additional Assistant for the Agricultural Research Station, Siruguppa. I entirely agree with him and request that Government may be pleased to renew the sanction for the temporary post of assistant sanctioned in G.O. Ms.No.3133, Development Department, dated 17-7-44.

Your obedient servant,

for DIRECTOR OF AGRICULTURE.

P.T.O.

Copy of letter No.330/45 dated 16-3-46 from the Government Agricultur Chemist, Coimbatore, to this office.

Sub: Establishment - Agriculture - Agricultural Research Station, Siruguppa - Employment of assistant - renewal.
Ref: Your No.A.3.1643/45 dated 11th March, 1946.

I submit the following circumstances relating to the subject matter of the above reference:

2. The soil samples and waters for the analysis of which the post was sanctioned were those sent by the Irrigation Department from time to time.- Such samples are not contemplated normally in the scheme of work of either the Analytical and advisory section of the Government Agricultural Chemist or of the Agricultural Research Station, Siruguppa. I am further afraid that analysis of the type required is not usually undertaken at Guindy.

3. My analytical section at Coimbatore is s till under-staffed and is hardly able to manage the work that is coming on in the execution of its own programme.

4. Since samples of waters and soils are expected to come in for analysis during the present year, the need for the extra assistant will continue to exist.

5. I further intend taking up soil studies and manurial trials as per suggestions of the Irrigation Board and the section at Siruguppa will be hard put to it to complete its programme if the sanction of the extra post is not made available.
